

Isolation Gowns

McKesson Isolation Gowns are comfortable and flexible. They are made of a non-woven, durable material and feature elastic cuffs. These disposable gowns are non-sterile and are not made with natural rubber latex. They are universal in size.

Features and Benefits

- Flexible construction offers comfortable, reliable protection
- Full length for maximum coverage
- Adjustable tie-tabs for easy application and removal
- Sewn seams provide superior strength
- Elastic cuffs provide a snug fit under gloves to prevent leakage
- Not made with natural rubber latex

Satisfaction Guaranteed

If you are not completely satisfied with any McKesson Brands product, you may return it for a full refund or credit.

Never Compromise on CareSM

With McKesson Brands, you'll never have to compromise. We deliver quality products at competitive prices, backed by our 100% satisfaction guarantee. We have decades of experience in the market, and we offer you support and work to help ensure you have the products you need, when you need them—making it even easier for you to provide the best care for your patients.

The product information contained in this document, including the product images and additional product materials, was collected from various supplier sources. All product claims and specifications are those of the product suppliers and have not been independently verified by McKesson Medical-Surgical or its affiliates ("McKesson"). McKesson is not responsible for errors or omissions in the product information.

The properties of a product may change or be inaccurate following the posting or printing of the product information in the document, either in the print or online version. Caution should be exercised when using or purchasing any products from McKesson's online or print documents by closely examining the product packaging and the labeling prior to use.

Due to product changes, information listed in this document is subject to change without notice. This information is placed solely for your convenience in ordering and McKesson disclaims all responsibility for its completeness and accuracy, whether or not the inaccuracy or incompleteness is due to fault or error by McKesson.

Lab Coats

McKesson Lab Coats are disposable and made with a nonwoven, polypropylene fabric, which is designed to protect the wearer from fluids. This lab coat features a front closure, collar, knit wrist cuffs, three reinforced pockets as well as a neck loop for hanging when not in use. The fabric is designed to be antistatic. Each coat is intended to hit right below the knees. There are 30 lab coats per case.

Features and Benefits

- Polypropylene fabric offers protection from fluids
- Garment is designed to be antistatic
- Knit cuffs are featured for added comfort and wearability
- Convenient neck loop makes coat easy to hang up
- Snap front closure for secure protection and easy removal
- Not made with natural rubber latex
